

Decision No 5/2024

by the General Assembly of the Reformed Church in Romania, Western District,
regarding the 9th General Assembly of CPCE

The General Assembly of the Reformed Church in Romania, Western District (Királyhágómellék), is astonished about the CPCE/GEKE theological work-document that had been made available to delegates of the upcoming CPCE General Assembly in Sibiu, as the document entitled “Gender, sexuality, marriage and family” relativises the teaching of the Scripture and mixes the extremely divisive gender ideology into our ecclesiastical teachings as if “weeds were sowed among the wheat” (Matthew 13:25).

As to Christians in the Reformed heritage, our only guide is the Holy Scripture. Staying on the grounds of Sola Scriptura, in accordance with the bioethical teaching of our Church, as well as, in harmony with the relevant decision by the Synod of the Reformed Church in Romania, the General Assembly of the Reformed Church in Romania, Western District, dissociates itself from the Bible-relativising content of the aforementioned working material. Further, by abstaining from the upcoming CPCE General Assembly, we protest against this blatant ideological attack against the good order of our churches; no representative of our Church shall participate in any connected meetings, forums, and the process of CPCE General Assembly in Sibiu itself, unless this destructive ideology is removed from the agenda.
